### An explanation of terms shown in the tables above

**Book cost for long positions** is the total amount paid to purchase a security including any transaction charges related to the purchase, adjusted for reinvested distributions, return of capital and corporate actions.

**Book cost for short positions** is the total amount received for the security, net of any transaction charges related to the sale, adjusted for any distribution (other than dividends), returns of capital and corporate actions.

**Market value** is the price of the security or fund multiplied by the quantity held.

Unrealized Gain or Loss is the gain or loss that would be incurred, if your holdings were liquidated as at the end of the statement period. It is calculated by subtracting book cost from market value.

In May 2024, the standard trade settlement period for North American Capital Markets is expected to be reduced from the current two business days to one business day after the trade date. This will impact most trades in securities. The change is expected to take effect Monday, May 27 for Canadian capital markets and Tuesday, May 28 for U.S. capital markets. Once implemented, your trades in Canadian and U.S. markets will settle one business day sooner.
